

Instructions for using the LaRue Reading Skills Assessment C

This assessment is given as a one to one interview with the student. To test the student, read the following script, and point to the examples on the test page as appropriate. Have your student point to the correct answer, say the correct answer aloud, or write the correct answer on the test page as appropriate. Mark the correct score for each question on this page, as you give the test. Don't correct the student, if they answer incorrectly, just acknowledge their answer and ask the next question. You can repeat each question or statement only once. If the student doesn't understand, move to the next question.

Note on pronunciation: If the student's answer is accented but comprehensible, give them credit. If their answer is too accented to be understood by most people, do not give them credit.

The questions are ordered in increasing difficulty within each section. If a student can not answer the first two questions in each section, there is no need to ask them further questions in that section. Move on to the next section to find out if they are more proficient in another area.

There are 4 sections to this test. Subtotal each section separately. When you have finished testing, refer to the Scoring Guide for help in interpreting the test scores.

1. "This is an a, and this is an a." For each of the following letters ask, "What is this?" Score one point for each letter correctly identified. _____
